

Video covered: <https://www.youtube.com/watch?v=1jGv3-rJ2GY>

Segment covered in specifics: 57:34 - 1:03:08

So, I have this video unlisted for a reason. Mainly because I'm kinda scared of the SCC and given how this person acted at the end of his video, I just don't want this out there in the open where this dude could also lash out at me. I'm kind of scared of getting screamed at for just telling someone to chill the hell out. So please guys, don't send this video to Boon, I prefer sending it on my own volition or having someone with my consent sending it for me. Anyone sending it without my consent is most likely a spy.

If I **DO** publicize this, that's probably mainly if people are not going to give me shit for this, or if Boon actually seems to agree with how I handled this. I just want as little as much drama as possible, given I've been going through... a lot. If you really want to know, just ask me in DMs, I don't want to talk about my issues publicly.

Also guys, given that this video is unlisted (or maybe it won't be), I doubt this video will lead to witch-hunting, but I'm saying this just in case, do not witch-hunt or harass this person, like please. That will do no favors for anybody in this situation. That is cringe; like seriously, no thank you.

So there's this video that an SCC YouTuber named Boonslayer made on someone who I consider to be a Lolcow named SonicShadow98, or just The SonicShadow Channel now.

## **Boon Cannon 49: Blurred Words and Suspicious Ties [The SonicShadow Channel]**

**Duration: 01:03:09 minutes**

The video starts off with Boon stating that there was a “commentary-related dramatic event” that brewed for approximately a year as he alleges. Debatable if you would ask me; given how I see SonicShadow as a low hanging fruit of some sort, not some destructive force in the SCC. When I think of destructive forces or “commentary-related dramatic event(s)” in communities, I think IDKYHannahFu, Levi-Matters, Sonic93, Creepshow Art, Prison Mate Luke, and others that have ruined lives for long periods of time. I don’t think an idiot that may or may not have low functioning Autism making a bad video screaming about Among Us, being stupid in his video about the SCC, lashing out once more about comments saying “sus” and lashing out again in a community post is a “commentary-related dramatic event”, but that’s just me.

Like take a look at this clip here and tell me how this guy is not a laughing stock or comes across as him being mentally stable in any sort of way.

[PLAYS CLIP OF SONICSHADOW WITH DARK SONIC SCREENSHOT GROWLING ABOUT AMONG US]

Boon also starts off with a compliment, but goes about it in a way that I disagree with; like how he compliments SonicShadow, but does it in a very backhanded way. Like saying “It’s a compliment. Get over it”. Implying someone would have a grudge over someone saying a video opening is “okay”.

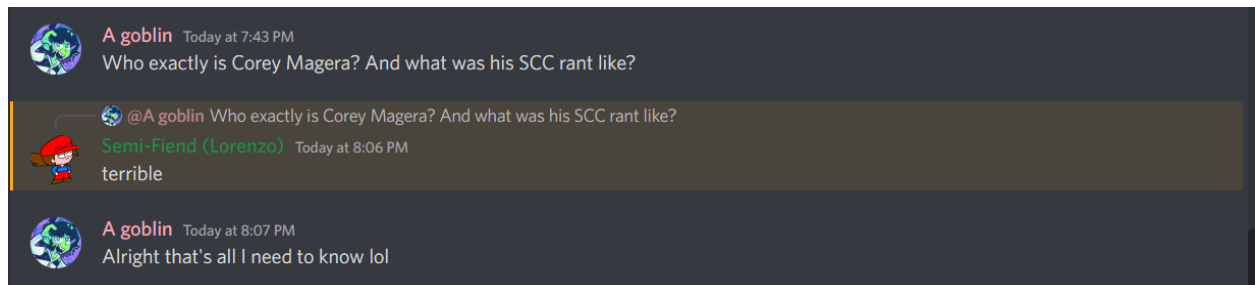

Being fair to Boon, the video has valid points. I didn't like my first impression, but over time I liked how humorous the video was. Albeit some moments he does throw around insults I deem unnecessary for the situation, given I feel that SonicShadow is... a little, let's just say, loony. Hell, Boon even says that SonicShadow has a warped sense of reality.

That was until his outro. I understand getting frustrated, but given how angry Boon gets (I don't care what he says, his words do come across as him being infuriated) I feel I needed to say something here. There's being harsh, and then there's... this.

[STARTS COMMENTARY]

58:01: I don't know who this Corey Magera is, I was not there during the whole 2016 debacle. But that can be subjective. You didn't... really explain about Corey Magera either about him flopping on his own points. You explained earlier in the video sort of about him SORT OF; but given how the video is fragmented, and only covers certain points of SonicShadow's 3 videos, and you don't go over him; it's sorta leaving me in the dark, bro. And to be honest, I am not interested in watching the Corey Magera video, your videos don't tend to strike my fancy. You're also saying this as if this is a fact, when it could just be a matter of opinion of yours. Maybe you could explain further to me but I am confused as to how this is a point to make without something to back it up.

So I asked a bit, and apparently it's a terrible video. That's all I need to know, I guess.

58:06: Could you not?

58:30: Yes.

59:10: This is you acting as if SonicShadow is a species that is a danger to you and worthy of disrespect when he is just a Lolcow in the community. I doubt some dude who gets mad at "sus" will do damage, he is just gonna get made fun of. Just like other attempts at hurting the SCC, his attempt failed, and miserably so. Doesn't mean that you have to treat him like a subhuman, like sheesh, this dude clearly has some issues.

59:15: What's the point in making the video if you were constructive in the video, but you feel he wouldn't listen? You make a 180 and suddenly you're incredibly overbearing. For example, when I made my video series on Ethel and Levi with Ephrom, I made the videos harsher after Essence of Thought and Levi blatantly lied about people in slanderous ways. I knew they wouldn't listen because they are liars and people like that don't like realizing that. But Levi and Ethel are clearly conscious adults. Shadow is a very different case, he clearly doesn't function in reality. He doesn't have much of a fanbase like those two do. You realize that you saying he's not gonna listen is you implying he may not change his ways, right? What's the point in making this video, then? This attitude is jarring, even after you read his disaster of a community post. You seem to clearly care, but yet you say he won't listen.

Even though he states he is trying to better himself? You saying he won't listen to criticism is an implication of him not wanting to change. Which is very destructive. I believe humbly that if someone states someone will never change without serious points of evidence is just a form of mental abuse. It'll cause people to internalize that said thought and self-destruct.

Self-harm if you will.

I'm gonna give a content warning for my personal experience.

For example, when I was told I was never going to change or a lost cause. I broke down into tears. I cried almost every night. I self-harmed. I even tried to kill myself by trying to pry open a window or jump, or access my father's gun safe. I hated that everyone hated me and still hates me. This shit hurts.

It seems like they don't trust me, trust my redemption, which annoys the crap out of me because I am working hard to better myself not just in real life but online as well, especially as a content creator on YouTube. They will mostly go after my second part to my CC rant, even if it's good, because it's criticizing them and apparently, you aren't allowed to criticize the Commentary Community without getting crap thrown at you.

And considering how Shadow doesn't function in reality, this can seriously hurt him more. I relate to not having sanity. I have done terrible things when I was not in a sound mind, it doesn't excuse anything, you can think what you want, but this doesn't feel right to me.

59:47: I'm guessing those are people you covered and in this context, I guess you are saying "I have to [destroy] you." Which given how stupid and how little harm Shadow has done, this doesn't feel like the right way to approach him. I don't know, maybe I disagree with your sort of honor code or something.

1:00:31: More dehumanization of the opponent and Jesus Christ, you didn't have to go there. It ain't like Shadow is an NPC, he is just an idiot Lolcow who makes bad videos. Just... laugh at him. You don't need to squish him like a bug, he's already dead! The most he's lied about from what I saw is Daisy Foxtrot's video upload date on him. You just sound very salty, bro. What a "pile of shit", guys! A possibly low functioning Autistic doing silly shit and lashing out when getting bandwagoned! Where have I heard that before?

[SHOWS PRINCESSELIZABETH13 ON SCREEN]

Oh yeah... that.

1:00:50: That's me!

1:01:35: "I know you're not going to listen to me, but I'll make a video over an hour long and see if you listen to me. I know you kinda hate me, but I'm gonna do it anyway. But figure it out yourself and I'm gonna insult you like crazy,"

Can you PLEASE decide what you want here? It isn't like Shadow is a prolific liar or a serial abuser. This attitude is not warranted in my opinion, I'M SORRY.

1:02:19: Wait, what?

[REPEATS CLIP OF BOON SAYING SHADOW IS CORRUPTED BY HATRED, MALICE, AND SPITE]

Jesus Christ, a video getting angry and lashing out ain't hatred, malice, and spite, that's just anger issues AT MOST.

I don't think lack of self-awareness and sheltered is malice dude, I think it's just... being dumb. It's... not that deep man [LAUGHS].

1:02:56: You clearly care, though. Why else would you make this over an hour long and you give helpful criticisms to Shadow? Why else would you even compliment him at the beginning of the video, albeit backhandedly? Could you have made it clear that this was to help the audience then or to set an example? If you didn't care, you wouldn't make the video. It's the simple truth.

So, I guess I will move onto my conclusion.

The outro... kinda ruined this video for me. I know videos can live up in spite of mistakes so maybe I feel the outro could be cut, but here's my thing with the outro. It feels oddly venty. I feel it could've been left in the drafts. I know you knew you were being harsh, but that's not the point I'm making here.

Maybe I just have a different honor code, but I feel whenever someone earns my disgust or insults, they have be of the following:

1. Destroyed people's lives over nothing or arduous things
2. Prolific liars that know what they're doing and refuse to stop
3. Stalkers that have years of stalking under their belt and refuse to stop stalking

4. Sex offenders
5. Pro-contact zoophiles

When it comes to those things, I don't think SonicShadow, I think people who have had a fanbase that ruined innocent people; or hurt children, or animals.

I just think SonicShadow is... dumb. He's not this malicious monster you're thinking he is. He's an odd one, but he's human. He's not worth your attention and your angry energy, and by you giving him that, you're giving him power and victimhood. Whether you like it or not, people like him tend to thrive off of this. You're not a therapist, you are not a psychologist giving him advice. You're just a schmuck. You give advice, but deep down you KNOW you can't help him. Your outro is incredibly contradictory, you seem exasperated which is understandable, but sometimes people like SonicShadow just don't listen.

This video isn't here to help SonicShadow. You don't have to listen to me and I'm not making this public for a reason because I'm just... scared of getting on your bad side. Or anyone's bad side. I may come across as a hypocrite, but I'm not here to insult you. You haven't done anything to warrant that from me. SonicShadow probably won't improve anytime soon. I'm saying 'probably', mainly because I don't want to say he will never improve or listen, that's just wrong.

Lolcows just need to scream in the void before realizing they need to improve or swing back into reality.

That's why I'm saying that if you "don't give a shit"; when it comes to someone like this, next time, just... leave them alone.

Anyways, that's my video, hopefully nothing implodes. Toodles!

END.
